

# G10™

10-Inch Euro-Top

## A Heritage of Comfort...

**Finding the perfect bed is easy.** All you need is a bed that gives each of you perfect firmness and support. A bed that can be adjusted until it fits both of you perfectly. A bed that adjusts independently on each side. You're looking for support that relieves pressure points for less tossing and turning. Less tossing and turning means a more restful sleep.

You should also be able to please your practical side, with a bed that can be updated or freshened whenever you like. Your bed should offer you the peace of mind that comes from a 25-year limited warranty.

You're in luck. We invented that bed over 30 years ago. **The Magic is in the Air™.** Based on our original air bed but improved and refined over all those years, the G10™ is designed to provide the comfort and support that only air can deliver. Say hello to air-supported sleep at an affordable price.

Sleep better, feel better, live better... Comfortaire®.

### Personalized Sleep Experiences™

You prefer firm while your sleep partner prefers soft.

There's no need to compromise. Each of you can adjust your side of the bed for a perfect individual fit. Adjustment is easy - just the touch of a button. Best of all, your Comfortaire® can be adjusted to always fit perfectly, even if your sleep needs change.

### Interchangeable Components

Unlike traditional innerspring mattresses, which sag over time until they are discarded, Comfortaire® mattresses feature modular construction that allows components like foam toppers to be changed out as they age. Components can also be updated to keep your Comfortaire® fresh and new.

### Original Air Technology™

The Original Air Technology™ that

we invented in 1981, and have steadily improved over the years, still delivers the air supported sleep promise of comfort and individual adjustability. One thing hasn't changed. Our quality is still unsurpassed.

### Q10™ Wireless<sup>ACS</sup>

puts the power of personalized adjustability at the touch of your finger... With 100 **Comfort Settings™**, this system gives you the perfect setting for your **Personalized Sleep Experiences™.**
