

## Control that Doesn't Stop at the Sleep Surface...

Discover complete control. Begin by individually controlling your side of the mattress, for the firmness that fits your body perfectly. **Attune™ Design** delivers the ultimate in personalized sleep benefits over the entire surface of your mattress. But, the U11™ doesn't stop there, because your day doesn't stop when you climb into bed. Comfortaire's exclusive split-top mattress is designed to deliver the maximum benefit from your adjustable base and gives "control" a whole new meaning. Not only can you adjust your Comfortaire® mattress for perfect comfort and support, but you can adjust your entire bed to suit your lifestyle, without disturbing your partner!

Combine control with a soft bamboo cover that manages moisture superbly to keep you cool and an ultra-plush green tea scented EvellaFoam™ comfort layer that hugs every contour. An exclusive low-profile air chamber provides the unique benefits of air support over every inch of your mattress for 15% more air support. Pressure points are reduced for less tossing and turning and more restful sleep. Relief is delivered to your back, shoulder and neck. You wake refreshed, restored and ready for the day.

Sleep better, feel better, live better... Comfortaire.™

### Personalized Sleep Experiences™

You prefer firm while your sleep partner prefers soft.

There's no need to compromise. Each of you can adjust your side of the bed for a perfect individual fit. Adjustment is easy - just the touch of a button. Best of all, your Comfortaire® can be adjusted to always fit perfectly, even if your sleep needs change.

### EvellaFoam™

Green tea scented Evellafoam™, an energetic memory foam

topper pad delivers the durability and resilience of latex, without the allergies, and it recovers slowly, like memory foam. U11™ molds to you, providing excellent pressure relief, and offers cooling properties as well.

### Split-Top Design

Creating a surface that is uniquely suited for use in conjunction with

Comfortaire®'s premium power base takes adjustability to a whole new level. Using a power base lets you tailor your Comfortaire® to meet your sleep needs even more perfectly.

### Bamboo Cover

Bamboo fibers have a highly absorbent mesh-like structure;

microscopic gaps in the bamboo fiber ensure that bamboo fabric always feels silky, cool and fresh. Bamboo doesn't stick to skin - a form of natural "air-conditioning". Plus, bamboo ticking is naturally anti-bacterial and anti-fungal.

### Q10™ Wireless<sup>ACS</sup>

puts the power of personalized adjustability at the touch of your

finger... With 100 Comfort Settings™, this system gives you the perfect setting for your Personalized Sleep Experiences™.

### Attune™ Design

Attune™ Design is the purest solution for air-supported

sleep. Attune™ puts your bed in complete accord with your body. Under a luxurious mattress cover, a layer of incredibly plush comfort conforms perfectly to you.

**Edge-to-Edge Air™** - Patented urethane based film air chambers go all the way to the edges of the bed for full adjustability across the entire mattress surface and 15% more air-supported sleeping area.

**Air on Top** - When air is brought to the top of the bed, you receive the maximum benefit from air support, pressure relief and ability to adjust firmness on each side of the bed to fit each sleeper's needs perfectly.

Comfortaire® Mattresses are proudly designed and crafted in the USA!
