

G13™

13-Inch Euro Top

Original Design, New Levels of Comfort...

Sleep on Air.™ The Genesis™ design is where air-supported sleep began. We invented our air bed to provide two key benefits: unprecedented control and pressure relief. Control means each of you can control your side of the bed individually, to the exact firmness that suits you best, with the ability to change firmness anytime, for any reason, at the touch of a button. Air support eliminates pressure points so you enjoy restful, restorative sleep, with less tossing and turning.

The G13™ is the most comfortable Genesis™ design ever. Beginning with our original design, the G13™ adds high style and exclusive luxury. Above the air chambers is our unique luxurious green tea scented Evellafoam™. Highly responsive, EvellaFoam® cradles you in comfort. A bamboo cover is incredibly soft and offers moisture control and allergen resistance unique to bamboo fiber. All this in a fashionable Eurostyle design.

Sleep better, feel better, live better... Comfortaire®.

Personalized Sleep Experiences™

You prefer firm while your sleep partner prefers soft. There's no need to compromise. Each of you can adjust your side of the bed for a perfect individual fit. Adjustment is easy - just the touch of a button. Best of all, your Comfortaire® can be adjusted to always fit perfectly, even if your sleep needs change.

EvellaFoam™

Green tea scented Evellafoam™, an energetic memory foam topper pad delivers the durability and resilience of latex, without the allergies, and it recovers slowly, like memory foam. EvellaFoam™ molds to you, providing excellent pressure relief, and offers cooling properties as well.

Original Air Technology™

The Original Air Technology™ that we invented in 1981, and have steadily improved over the years, still delivers the air supported sleep promise of comfort and individual adjustability. One thing hasn't changed. Our quality is still unsurpassed.

Bamboo Cover

Bamboo fibers have a highly absorbent mesh-like structure; microscopic gaps in the bamboo fiber ensure that bamboo fabric always feels silky, cool and fresh. Bamboo doesn't stick to skin - a form of natural "air-conditioning". Plus, bamboo ticking is naturally anti-bacterial and anti-fungal.

Q10™ Wireless^{ACS}

puts the power of personalized adjustability at the touch of your finger... With 100 Comfort Settings™, this system gives you the perfect setting for your Personalized Sleep Experiences™.
