

Attune™ Design... A Fresh Look at Air Support.

The N¹¹™ brings you a fresh approach to air-support, **Attune™ Design**. This ground-breaking design puts your bed in complete accord with your body.

Beneath a unique cooling cover, a responsive green-tea-scented Evellafoam™ comfort layer conforms to the contours of your body. **The Magic is in the Air™**. Air is brought to the top of the bed, where you gain the greatest benefit, reducing pressure points for more restful sleep, and providing relief to those who suffer from back, neck or shoulder pain. Unique urethane based film air chambers deliver air across the entire sleep surface for 15% more air supported sleep area.

When your body is in harmony with your bed, you'll sleep restfully, with less tossing and turning, and wake restored.

That's **Comfort for Life™**.

Personalized Sleep Experiences™

You prefer firm while your sleep partner

prefers soft. There's no need to compromise. Each of you can adjust your side of the bed for a perfect individual fit. Adjustment is easy - just the touch of a button. Best of all, your Comfortaire® can be adjusted to always fit perfectly, even if your sleep needs change.

EvellaFoam™

Green tea scented Evellafoam™, an

energetic memory foam topper pad delivers the durability and resilience of latex, without the allergies, and it recovers slowly, like memory foam. EvellaFoam™ molds to you, providing excellent pressure relief, and offers cooling properties as well.

Feran Ice® Technology

Moisture transport is the key to keeping cool. When you begin

to perspire, Feran® Ice, with its distinct hydrophilic function wicks away moisture faster than any other fabric. You stay cool - and sleep better.

Q10™ Wireless^{ACS}

puts the power of personalized adjustability at the touch of your

finger... With 100 **Comfort Settings™**, this system gives you the perfect setting for your **Personalized Sleep Experiences™**.

Attune™ Design

Attune™ Design is the purest solution for air-supported

sleep. Attune™ puts your bed in complete accord with your body. Under a luxurious mattress cover, a layer of incredibly plush comfort conforms perfectly to you.

Edge-to-Edge Air™ - Patented urethane based film air chambers go all the way to the edges of the bed for full adjustability across the entire mattress surface and 15% more air-supported sleeping area.

Air on Top - When air is brought to the top of the bed, you receive the maximum benefit from air support, pressure relief and ability to adjust firmness on each side of the bed to fit each sleeper's needs perfectly.

Comfortaire® Mattresses are proudly designed and crafted in the USA!
